How to Add an IP to your SIP Trunk

Adding an IP regardless of the time of day, in just a few steps.

- Open a web browser and navigate to http://portal.voxox.com

- Sign into your account

- Upon signing into your account, you will select the **SIP Trunk Management** tab

- Locate the SIP Trunk that you would like to modify and select **Edit** under **Edit IPs**

- Add your IP

  - Click on **Add**

  - Enter a **Description**

  - Enter your **IP Address**

  - Enter **Netmask** [Please set **Netmask** to **32**, as this is normal for a single IP]

  - Enter **Capacity:** [This will not change the accounts available call capacity]

  - Click on **Add**
